

- The first impression we received from OCC Group is lasting longer in our heads if not in our hearts. They opened doors for us to see very important THINGS in India.
- Just to let you know that, accompanied with my wife, I came to India for the first time due to my poor health condition, after being referred to MEDANTA HOSPITAL, from Tanzania, East Africa.
- Many thanks to OCC Team under the flexible leadership of Sir Prabal Arora and his wife Annie who have set the team in a way that you see OCC GROUP in India as our extended family from Tanzania.
- Our short story starts at Delhi airport where we were received by smiling faces of Mr. Grantam and Mr. Virender who gave us a "best wish card" from OCC Team. Really, our being new to India evaporated, instead, we felt free and comfortable. Thereafter, we were directly driven to Medanta Hospital for further management.
- After being discharged, the OCC GROUP were readily available and took us "SOMEWHERE", where I forgot all my past health problems. The place is very interesting and enjoyable. We felt at home. The OCC TEAM being near to us all the time.
- I am not cutting you short, but, the good work of OCC Group to enable treatment connections, to foreigners, be done in India is highly recommended.
- Before we go back to Tanzania, we ask your permission to refer others to OCC GROUP through:-
arora@optimumcurecare.com and/or www.optimumcurecare.com

Best regards, Japhet Reuben and Hilda Japhet Mwahelija
